Career Objective

"To secure a Front-End Developer position where I can leverage my expertise in HTML, CSS, JavaScript, and React.js to deliver user-centric, high-performance web applications. My goal is to contribute to a dynamic team, building scalable solutions that drive innovation and growth while continuing to sharpen my technical and problem-solving skills."

Professional Experience

React Developer, SmartGig Technologies Pvt. Ltd.   03/2024 – 09/2024
Project: Tellida - Project Management & Estimation Tool.   Hyderabad
Responsibilities:

- Led the development of a React-based tool for project planning and RFP management.
- Focused on developing workflows for project tracking, resource allocation, and estimation.

Key Features:

- **Dynamic Dashboards:** Built real-time dashboards for insights into project statuses, including budget and task distribution.
- **User Management:** Implemented authentication and role-based access controls.
- **Onboarding:** Developed user and client onboarding with a 15-day free trial to boost engagement.
- **Payment & Subscription**: Integrated Razorpay for subscription and payment management.
- **AI-Driven Proposals:** Automated proposal generation using ChatGPT-4.

Technologies Used:

Next.js, Redux, Shadcn, Tailwind CSS, GraphQL.

Bachelor of Technology in Electronics and Communication
Swami Vivekananda Institute of Technology, Secunderabad   **2019 - 2023** | 6.67CGPA

Intermediate in MPC
Narayana Junior College, Hyderabad   **2017-2019** | 83%

Skills

Web-Technologies: HTML, CSS, Java Script, Basic Node JS and SQL.
Library/Framework: React JS, Next JS, Redux, Tailwind CSS.
Tools: Git, Postman.
Soft Skills: Problem-solving, Analytical thinking, Team collaboration.

Certificates

Hackerrank JavaScript (Feb 2024) ⤢	**Hackerrank Problem solving (Feb 2024)** ⤢	**Software Engineer Intern (Feb 2024)** ⤢

Projects

Expense Tracker ⬈
Technologies: React.js, Node.js, MongoDB.

- **Overview:** Developed a minimalist full-stack application for tracking and categorizing expenses with visual insights to help users manage their spending habits.
Key Features:

- **Doughnut Chart**: Used Chart.js for a visual summary of financial data categorized by investments, savings, and expenses.
- **Simple Input Forms**: Built user-friendly forms for entering transactions.
- **Transaction History**: Displayed a detailed transaction history for easy review.
- **Real-Time Updates**: Leveraged React state management for instant UI updates.
- **Backend Integration**: Node.js and Express handled API requests, while MongoDB ensured secure and reliable data storage.
- **Git: https://github.com/tarunreddybabi/expense-tracker** ⬈

Quiz Platform ⬈
Technologies: HTML, CSS, JavaScript

- **Overview:** Created an interactive web-based quiz platform with sections for HTML, CSS, and JavaScript, offering users an engaging way to test their knowledge.

Key Features:

- **Section-Based Quizzes**: Separate quizzes for HTML, CSS, and JavaScript.
- **Interactive Question Cards**: Provided instant feedback on user answers with color-coded indicators.
- **Answer Reveal**: Displayed correct answers after each question to aid learning.
- **Score Summary**: Offered a final score summary for user performance assessment.
- **Git: https://github.com/tarunreddybabi/Quiz** ⬈

Declaration

I hereby declare that the above information is true to the best of my knowledge and belief. If any discrepancies are found, I understand it may affect my application.
